

November2019

Dear Friends,

INDIA: The classes at Providence Evangelical Bible Seminary are going well. I've just returned having completed the Doctrine of God and Doctrines of Grace subjects. The students that God has brought us, in answer to our prayers, have a blessed earnestness and desire to know Him and His Word better in order to serve Him faithfully.

In the same year as our swell from the usual 20ish to 30 students there also came an unexpectedly long monsoon season this year. Near the end of October we had a surprise storm and an accompanying lightning strike that blew out our electricity transformer. We scrambled to get it replaced since the entire campus was without power (except for our emergency generator). When the crane arrived for the installation, it could not reach the location because the ground was too soft from rain – it got stuck. It took over a week to dry out sufficiently, but now all is repaired.

Pray for Dave Merck who is on campus now teaching Church History: From Reformation to Present.

Our injured graduates/ministers Biju and Danny are both recovering from their surgeries. They are both able to walk a little, but the road to complete recovery looks like it will be lengthy. Pray that God will have his hand of mercy and strength on these men and the churches where they serve.

MAURITIUS: My visit to Mauritius was also very productive. We had a special men's meeting at the church as well as some leadership classes. We are praying that God will raise up men to be elders along side of Jean-Marie. Also keep in prayer the possibility of some of these men traveling to India to take some of the classes we offer at the seminary in India during January and February.
